## Secure your security

### ▶Smart keyless remote

encryption locking technology is safer than keys that can get lost

### ▶Total control

You control when people have access to your home. For example you can issue a key that works 24/7 for a family member , or one that works a couple of hours a week only for your cleaning person.

### ▶Log records

You can see a Log of who's entered and exited-and exactly when they did from your phone

### ▶Lost of smartphone

Install and run janitor app in another portable device, initialize the lock, then the lost smartphone will be invalid

## Simple to use

### ▶Long-term User and Key

For the family members and staffs, it is not necessary send an authorized code to them every time. Install SoftKey or use a NFC tag as long-term users.

### ▶Guest access

Specific days and times when the recipient can enter. No need to worry about getting keys back from guests or renters.

### ▶Easy Install

Ospon replaces existing knobs and no wiring or drilling required,in about 10 minutes,you are good to go

## Various models support NFC function, best for your choice!
